

Managing farm water supplies in dry times

AGRICULTURE VICTORIA

The prevailing hot and dry conditions are challenging producers to provide a reliable water supply to their livestock.

Agriculture Victoria is inviting producers to a free evening workshop. This event will help attendees to examine their current farm water supplies and explore practical strategies to prepare for future livestock water requirements.

Topics covered include:

- Seasonal outlook
- Animal health and welfare
- How much water does your farm need?
- How much water can you store?
- Setting trigger points for critical decision making
- Short-term options and long-term planning.

Presenters:

Greg Bekker, Agriculture Victoria
and

Stephen Gemmill, Goulburn Murray Water.

Where:

Agriculture Victoria – Rutherglen
124 Chiltern Valley Road, Rutherglen.

When:

Monday 4 March 2019

6pm for light refreshments.

Presentations from 6.30pm – 8.30pm.

Catering:

Finger food will be provided from 6pm. Please advise if any dietary requirements.

Registration:

To register or for more information, please contact Ian Gamble at Agriculture Victoria Rutherglen, on 0437 362 620 or ian.gamble@ecodev.vic.gov.au

**Please note: Agriculture Victoria will cancel this workshop if a Code Red day is declared for this area.*

This workshop is delivered in partnership with the North East Catchment Management Authority through funding from the Australian Government's National Landcare Program.
